

DESCRIPTION

RUBBER SLOW DOWN

RUBBER SLOW DOWN

- Made from good quality rubber, lightweight.
- Convenient and quick to install and dismantle.
- Can support the weight up to 15 tons, therefore can support the weight of the truck without collapsing.
- There are 4 photocell (reflective glass beads) to reflect the light at the front of the car at night.
- The pattern of the tires increases the friction of the wheels of the car. Therefore helping to prevent wheels from slipping.
- Speed Ramp Yellow / Black Size 50 x 35 cm.
